· ALWAN

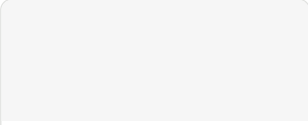

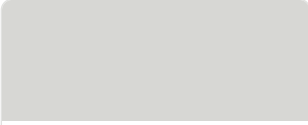

HOW TO USE THIS GUIDE

Every colour below is identified by its RAL Classic code, the international standard used by all major powder coating manufacturers. Tell us the RAL code and your preferred brand — Jotun, National Paints, Axalta, AkzoNobel or Alwan — and we will match it exactly for your project. Colours shown are indicative for print/screen only; actual pigment may differ from the physical RAL chart. Physical colour samples are available on request before any production run.

This is Al Laraa Metal Coating's own reference guide. For each manufacturer's full official colour collections, visit their websites: Jotun (jotun.com) and National Paints (nationalpaints.com).
